

## Forum Ophthalmicum Balticum 2022 Conference

Dear Friends and Colleagues

We would like to invite you to Forum Ophthalmologicum Balticum 2022 that will take place on August 19<sup>th</sup>-20<sup>th</sup> at Estonian National Museum in Tartu, Estonia. The venue is especially symbolic as Estonia celebrates the 31<sup>st</sup> anniversary of the restoration of independence on August 20<sup>th</sup>.

The last years of COVID pandemic have reminded us that scientific meetings are a crucial part of our professional lives. FOB2022 will be one of the first possibilities to meet everyone once again after several years and we hope a lot of you will participate.

The Baltic Forum has always been a great possibility to present our own work, but we have also invited several experts from different ophthalmic subspecialities to share their knowledge.

Excellent ophthalmic care is only possible when everyone in the team performs their tasks professionally. Therefore, we will have for the first time a separate program for ophthalmic nurses and technicians during FOB2022. This will certainly facilitate contacts between Baltic ophthalmic nurses and give a chance to share their experiences.

Our meetings are a lot more than just scientific presentations. We hope that you will find time to interact with and get to know Estonia's second largest city Tartu. It is not just the site of one of the oldest Universities in Europe, but also the European Capital of Culture 2024.

We hope that this meeting will be memorable both for its scientific content as well as social interactions.

Mikk Pauklin
